

FROM YOUR FRIENDS AT...

1. Test your smoke alarm monthly and have a properly installed and well maintained smoke alarm on each level of your home.
2. Smoke Alarms should have their batteries changed every six months and be replaced every ten years.
3. Ensure that your civic number is visible from the end of your driveway to allow emergency vehicles to find you during an emergency.
4. Never leave cooking unattended and turn pot handles inward so they can't be bumped or pulled over.
5. Design and practice escape drills in the home, using two ways to get out and have a meeting place outside.
6. Never store propane cylinders (BBQ) indoors in any structure. Store the cylinders upright outdoors in a well ventilated space.
7. Have your chimney inspected by a professional once a year, and cleaned if necessary. Use only dry seasoned wood in fireplaces and woodstoves.
8. Don't overload your electrical circuits and keep matches and lighters stored in a safe place away from children.
